"The Bank of Spare Capacity"

🌐 Our Mission...

is to work with you in a proactive way to capture and monitise what otherwise would have been worthless spare capacity.

As responsible business owners our CSR is to arrest the alarming numbers of disadvantaged and under-utilised groups within our society who are under-employed.

We will offer you an alternative trading platfrom to sell unwanted goods and services as well as provide a stepping stone into full-time employment.

We will share with you the creative ways thousands of business owners have used the global BBX platform to their benefit since we opened in 1993 in a proactive networked way.
